PROFESSIONAL PROFILE

AI & ML undergraduate with experience in Python, Java, SQL, React, and TensorFlow. Passionate about building innovative solutions, exploring emerging technologies, and applying Artificial Intelligence to solve real-world challenges. Eager to learn, grow, and contribute to impactful technology-driven projects.

WORK EXPERIENCE

Web Dev Intern - UDAAN Society

[January 2026 - March 2026]

Assisted in organizing events, managing social media, and maintaining records. Collaborated with team members to execute community initiatives while gaining skills in communication, teamwork, and project coordination.

EDUCATION

Year of Passing

B.Tech | CSE [AI & ML]

2027

CMR Technical Campus , Medchal , 501401

GPA - 8.46

SKILLS

Programing Languages	- Python , Java, SQL
Web Technologies	- HTML , CSS , JavaScript, React
AI/ML	- Machine Learning, TensorFlow, OpenCV
Databases	- postgresSQL
Tools	- VS code, Git, Github Eclipse, N8N, Basic Figma
Professional Skills	- Communication , Interpersonal Skills, Collaboration , Leadership

CERTIFICATIONS

• PwC Launchpad - Advisory Program (Credential)	Jan 2026 - Feb 2026
• PwC Job Simulation Experience Program (Credential)	May 2026
• Salesforce AgentForce Specialist - Salesforce	December-2025
• Certified in Cisco CCNA "Enterprise, Networking, Security and Automation"	January-2026
• Oracle Cloud Infrastructure (OCI) 2025 Certified AI Foundations Associate	Oracle University (Oct 2025)
• Certified in "GenAI in Data Analytics " By Meta & Infosys SpringBoard.	June 2025
• Completed Google AI/ML Virtual Internship through Eduskills	

PROJECTS

Gamified Learning Platform for Rural Areas [Link](#)

September 2025

HTML, CSS, JavaScript, React, JSON, SQL

Developed a React-based learning platform with gamification features and SQL-based progress tracking.

Prevention and Prediction on Shunting in Fetal: [Link](#)

January 2025 - April 2025

HTML, CSS, JavaScript, Python

Created a healthcare web application providing nutrition recommendations and maternal health insights using Python.

Naval Hydroacoustic Surveillance System

Python, Machine Learning, Computer Vision, TensorFlow, OpenCV

Jan 2026 - Apr 2026

Built an AI-powered maritime surveillance system using TensorFlow and OpenCV for underwater threat detection and classification.

ACHIEVEMENTS

Built 3+ AI/ML & Web Development Projects

Solved 50+ [LeetCode](#) problems in DSA and problem-solving.

[Selected for National Level Smart India Hackathon](#)
